VINYL PLANKS

PURE

Share our
passion

At Beaulieu Flooring Solutions we dream, feel, live and love flooring. More than just making beautiful floors, we create visually pleasing, durable, quick to install and easy to maintain solutions. As the European leader in wall-to-wall flooring, we stand for excellent value for money, continuous innovation as well as a dedicated and personal service. In short, we provide you with the best of the best in a greener and more sustainable way.

Our passion for flooring is reflected in one of our divisions, BerryAlloc. This internationally renowned and highly rated range offers you wonderful laminate for residential and commercial use, wall panels for kitchens and bathrooms and a complete parquet flooring series each with accompanying accessories.

In this brochure we present to you the Vinyl Planks collection (aka LVT - Luxury Vinyl Tiles). Enjoy DreamClick, the new and revolutionary locking system. Or go for GlueDown dryback design flooring. Choose any design you see fit for your home. But most of all be inspired and share our passion.

OUR UNIQUE FEATURES

No levelling floors

When the surface or subfloor is slightly uneven, little or no levelling is required. Thanks to the recently developed RCB technology (Rigid Composite Board), you can just install PURE on top of your old tile floor, with no risk of telegraphing the tile joints. This means more time savings and easier and faster installation!

Water-resistant

Looking for a floor that can stand up to wet and dirty shoes or children who turn your bathroom into a swimming pool? Then a PURE LVT floor is just what you need: it is fully water-resistant, from top to bottom. So feel free to install it anywhere you like!

Acoustic top layer

PURE absorbs noise to the max! The floor gives off a soft sound when you walk on it and like real wood, feels warm and cosy to your feet. Besides, it has a protective polyurethane lacquer. This makes the floor easy to clean and protects it against daily wear and tear.

360° locking system

The DreamClick locking system lets you have your floor up and ready in no time. The unique 360° interlocking profile makes the planks click together on each side: back, front, left or right. You can create any floor pattern you can think of. A versatile and superior solution!

WHY CHOOSE PURE?

Warm underfoot

This floor touches the senses. Not only are our decors a delight to the eye, they also feel warm and cosy to your feet.

Lightweight

The RCB technology makes the board lightweight and stable. No need to drag heavy packs around!

Loc strength

The strong joints give a greater resistance to heavy traffic and rolling loads.

Environmentally friendly

Our floors are 100% recyclable.

9 unique planks

The vinyl floors come in 9 unique planks per design.

Protective PU lacquer

All our floors are hygienic and stain-resistant thanks to the polyurethane lacquer.

Suitable for floor heating

The vinyl floors have a low heat resistance, which make them an ideal match with floor heating.

Easy maintenance

This floor requires very little maintenance. All you need is a wet mop and standard cleaning products.

Dust-free installation

Our floors are simple and fast to install. You need little equipment and installation is dust-free.

No leveling

Made in Belgium

BerryAlloc vinyl planks are developed and produced in Belgium.

The 2015 collection is

1.

Spirit

When it comes to creating comfortable spaces, we like to keep an open mind. That's our nature. No stress. Be yourself. Follow your intuition. Be happy.

2.

Origin

Quit the rat race, slow down and enjoy a moment of peace and quiet. Think local and respect the nature of things. Can you feel the authenticity behind our actions?

inspired by 4 key trends

3.

Future

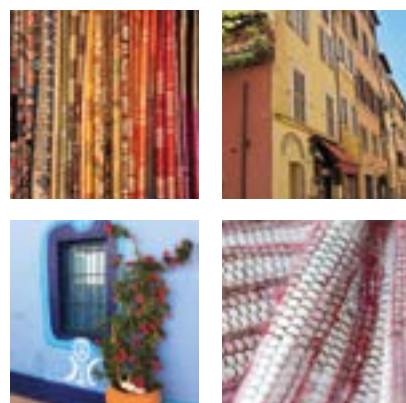

Embrace the future and dare to innovate. That's our motto. So yes, we're cutting edge and into hightech, as long as it doesn't disturb your comfort zone.

4.

Folk

We're all fascinated by crafts and inspired by art and design. Moreover, we like to share our ideas and make the world a more beautiful and warm place to live in.

TOULON OAK 236L

Your idea of a living room

Nothing beats the feeling of coming home after a hard day's work and relaxing in the warm surroundings of a cosy living room. No one knows this better than Katy and Nathan. That's why they fell for the pleasant feel of vinyl plank flooring.

Cosy comfort

Nathan [32]

"The click system made it really easy to install this floor!"

WARM FLOOR,
COMFY SPACE,

good feeling

"In our living room we like everything to be calm and cosy. Shoes off, lie on the couch and enjoy. No stress, just relax. To create that atmosphere we picked a warm floor that reflected our lifestyle. The BerryAlloc PURE vinyl plank collection came in a wide variety of designs and colours. There were more than 40 unique and exclusive wood

and tile designs! With such a wide range, from soft to more rustic we had no trouble finding the floor we liked. Today, we enjoy the realistic look of our PURE floor, and its warm wood structure and subtle bevels. Home sweet home!"

TURN YOUR
HOME INTO A
masterpiece

It's a dream come true

The bedroom is a place to enjoy a good night's sleep. That's why it has to feel comfortable, and sooth all your senses. "Besides, our kids are allergic to dust, so we wanted to be sure the environment was hygienic and easy to clean", says Ann.

"A friend of ours suggested we lay vinyl planks in all the bedrooms. They come in a wide range of designs and colors, and have the right qualities to create a nice and quiet bedroom environment. The special acoustic vinyl top layer provides an ultra-light walking sound and a soft and warm surface. No noise of your children's feet when they're running around. No more cold feet when you have to get out of bed at night. Moreover, the vinyl PUR coating makes the floor easy to clean and ultra hygienic. You just need a little water and a mop. It's really a dream come true!"

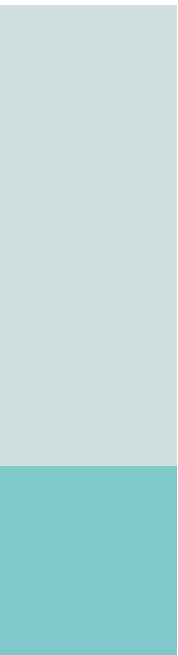

Ann [42]

"Vinyl planks feel warm and cosy. So, no more cold feet when you have to get out of bed!"

TOULON OAK 109S

Enjoy a kitchen to your taste

Tastes vary and we don't just mean in terms of food. When it comes to interior design different people like different things too. Are you into country or urban styles? Do you prefer something modern or classic? Patricia and Eric had a taste of our collection and were delighted.

"A kitchen floor isn't about style alone. It has to fit into the bigger picture. It needs to be practical, easy to clean and hard-wearing too. The kitchen is the centre of our home and the place where everybody comes together to eat, drink, work and play. Once in a while things get spilt on the floor or someone runs over it in dirty shoes.

That's why we fell for PURE vinyl planks. They are easy to install, available in any design and colour, and maintenance-friendly. All you need is water and a cleaning product to keep the floor in tip-top condition. The pleasant feeling of warmth and silence is a nice bonus."

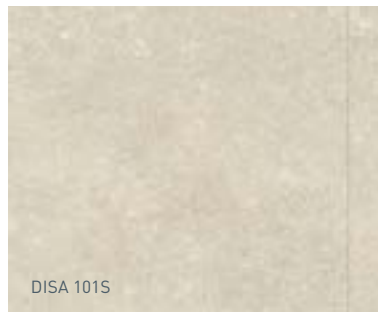

Patricia (51)

"I like a clean kitchen with a cosy atmosphere. The design and low maintenance of this floor have exceeded my expectations."

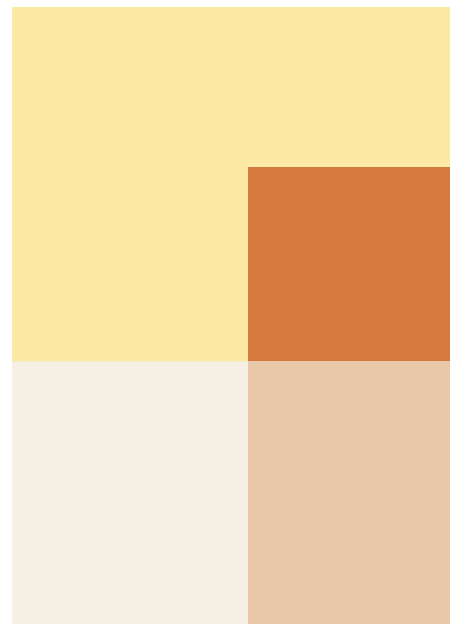

DISA 101S

DISA 797M

COLUMBIAN OAK 636M

"Every day our shop attracts plenty of people. Due to the high traffic, the floor needs to be ultra wear resistant. That's why we chose vinyl plank flooring when we renovated the shop last year. They are not only hardwearing, but also easy to install. We only had to close for one day! Two workers installed the floor side by side, without creating huge clouds of dust. There was no mess, we could leave all of our products on the shelves and were ready to re-open in the nick of time!"

THE
right solution
FOR COMMERCIAL FLOORING

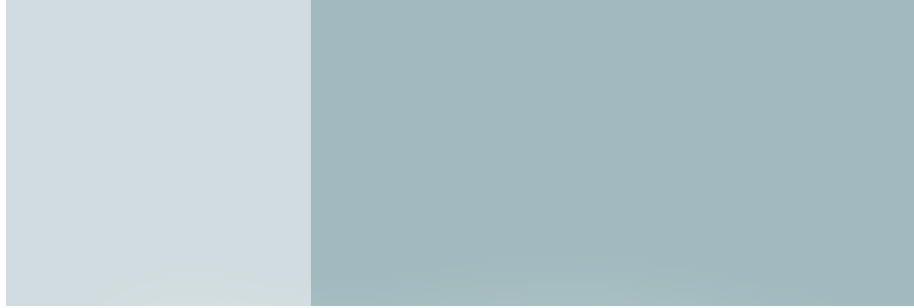

COLUMBIAN OAK 636M

A great place TO WORK

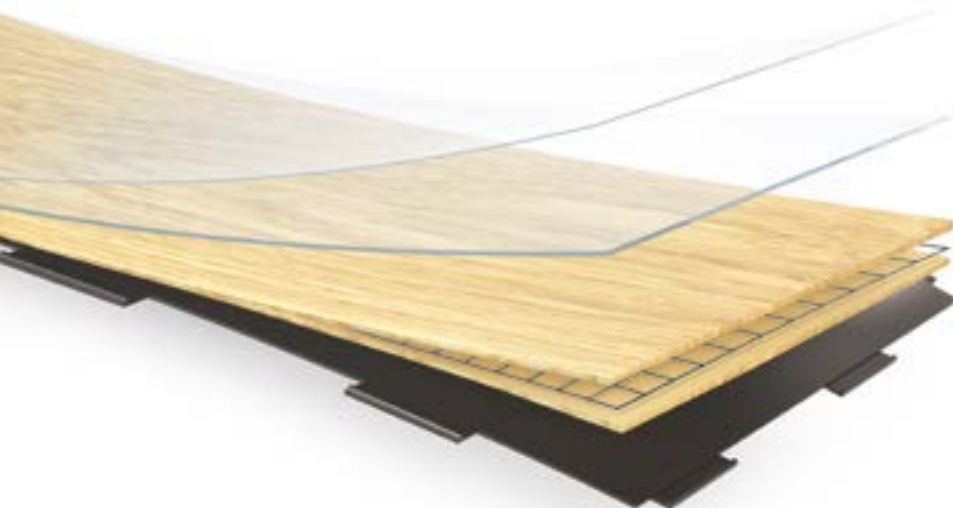

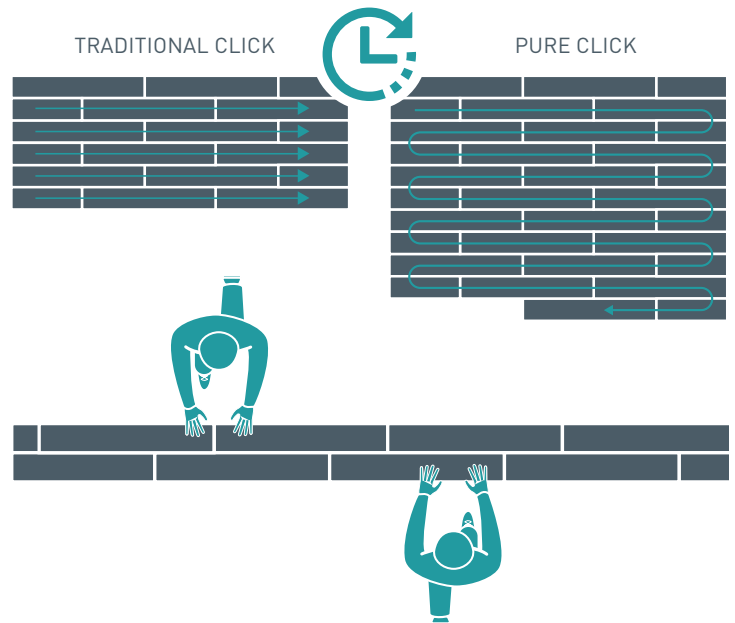

PURE CLICK

A revolutionary click system

A 360° LOCKING SOLUTION

- Super-fast installation: PURE Click is unbeatable for installation thanks to its unique identical interlocking profile on all 4 sides. No need to walk back to the other side of the room to start the next row. Start the installation in either corner of the room and click your way to the other side. You can start the next row where you've finished the previous row.
- Expand your creative thinking and fit any floor pattern you can think of. You can even mix several colours to create a staggering effect.
- Several fitters can work simultaneously on the same floor. You can finish any room in no time at all!
- Thanks to the solid and more Rigid Composite Board (RCB), PURE Click is unaffected by high moisture levels and is extremely stable at normal room temperatures.
- The strong joints give a greater resistance to heavy traffic and rolling loads.
- PURE Click: lifetime warranty for residential use.

- 1 Protective PU lacquer
- 2 Wear layer (0,40/0,55 mm)
- 3 Acoustic vinyl decor layer (with fiberglass)
- 4 Rigid Composite Board (RCB) with DreamClick locking elements

How to click your floor

1

Join the planks by positioning and sliding them towards each other flush with the floor so that the connector tabs start to interlock.

2

To complete the joint, lift the outer edge of one plank upwards to approximately 20°. You don't need to use a hammer to put the planks together.

3

Gently push the planks together to achieve a perfectly tight joint, then lock the joint by lowering the plank back flat onto the floor.

4

Thanks to the four-sided click system, you can lock the planks along either the long or short sides.

5

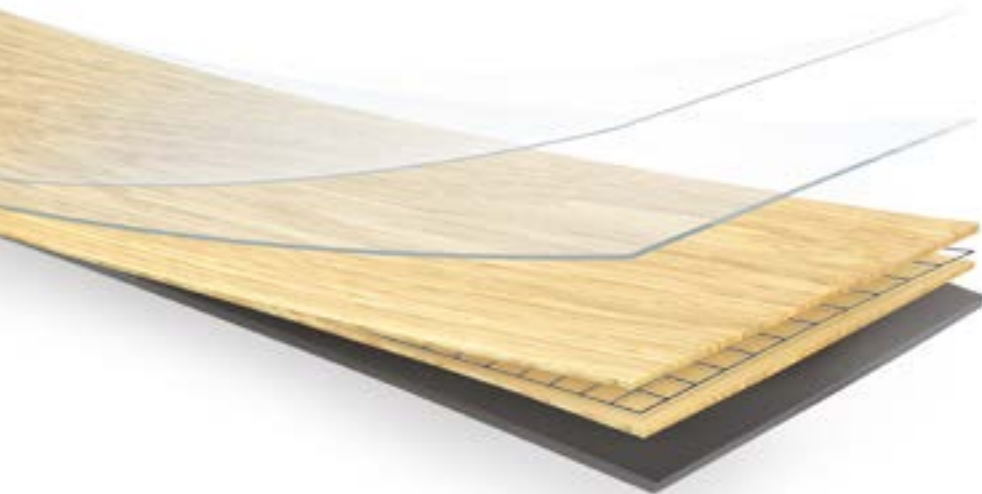

Join the short side so that the connector tabs start to interlock. Slide the long side into the previously installed row. Lift slightly, click and push down.

PURE

Pure and simple installation

EFFICIENT SYSTEM, CLEAN RESULT

- Thanks to the RCB backing, you need little or no levelling.
- Easy to install: you just need to join and glue down the boards.
- The PURE superior wear layer protects your floor from all the assaults it suffers during a busy day.
- With its thickness of 3,2 mm (GlueDown) or 5 mm (Click), PURE is an excellent solution for renovation.
- PURE is a quiet floor: the vinyl gives soft sound when walked on.
- Our floors are 100% fully recyclable, and so at one with nature.
- The floors have a low heat resistance, which makes them ideal for combining with underfloor heating.
- PURE floors are water-resistant so they are also suitable for bathroom and kitchen.
- Easy to clean with water and standard cleaning products.
- PURE: lifetime warranty for residential use.

- 1 Protective PU lacquer
- 2 Wear layer (0,55 mm)
- 3 Acoustic vinyl decor layer (with fiberglass)
- 4 RCB - Rigid Composite Board

How to glue your floor

1

Use the special BerryAlloc adhesive, a roller and a recipient. Divide the room into smaller sections. Start with the area of the floor where you will install the first planks. Spread the adhesive on the floor.

2

Push the short edges of the planks together whilst holding the already installed plank in place.

3

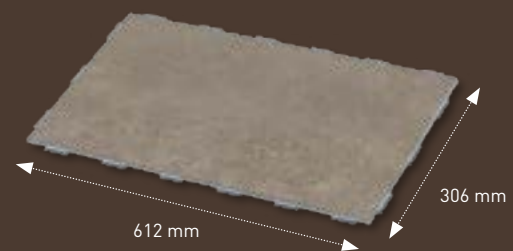

Gently push the entire plank down. Pull the long side of the plank towards the previously installed row to ensure a perfectly tight joint. Press the planks to ensure good adhesion to the subfloor.
