## NATURE IS OUR SECRET

FSC-certified timber from Swiss forests not only stands for outstanding quality, but also for sustainability and the responsible use of the natural raw material. After all, our floors must live up to the highest standards – on all levels.

## PASSION FOR WOOD

Our highly modern production facilities allow maximum precision and uncompromising quality. But innovative machinery alone is not enough: committed employees with many years of experience accompany the working process that has developed according to the latest technology and thereby ensure that floors are created which never cease to impress.

# 8MM NOBLESSE

The Noblesse range is an AC4 grade floor that brings you a spectacularly unique character to your flooring. With a great range of decors and styles to choose from, it will bring that desired look that you have been looking for. Made of 100% FSC Mix certified wood from local sources - produced at the most modern, environmental friendly production facility of its kind.

## DESIGN THAT INSPIRES

We are convinced that good interior decoration starts from the “floor” up. It is the foundation of every room and reflects the character of its inhabitants or its users. We are therefore always looking for innovative design and the latest trends.

## TRADITION MADE IN SWITZERLAND

Modern home décor has always played a very big role in Switzerland. And that’s no wonder: beautiful things are also created in a beautiful environment. With floors of superior quality from Kronoswiss, you can have your very own piece of Switzerland at home. And as a result, you will also get to enjoy Swiss precision, reliability, sustainability and innovation.

## 12MM GRAND SELECTION

Grand Selection looks and feels like a precious hardwood floor - unrivalled in depth and precision of how the structure meets perfectly with decor. Produced with the latest technology for a healthy living, emissions of vapours are the same as you would expect from wood in its natural state. Made of 100% FSC Mix certified wood from local sources - produced at the most modern, environmental friendly production facility of its kind.

# TECHNICAL SPECIFICATIONS

## CHARACTERISTICS

### Attractive

Available in authentic Oaks in modern colour tones from light to dark and individual, distinguished planks. A floor of timeless beauty to enrich any place.

### Innovative

Looks and feels like a precious hardwood floor – unrivalled in depth and precision of how the structure meets perfectly with the decor. Produced with the latest technology.

### Healthy

Produced to strict European standards. For a healthy living, emissions of vapours are the same as you would expect from wood in its natural state.

### Ecological

Produced at the most modern, environmental friendly production facility of its kind.

### Resilient

Superior abrasion, scratch & impact resistance as well as colourfast (anti-fade) & anti-static properties.

### Affordable

Unbeatable Price vs Performance ratio compared to traditional hard wood floors. Great value for money with long-term cost savings making it the ideal choice for your flooring solution. It is a low maintenance and easy to care flooring, there is no need to wax, polish nor sanding it, and it will stay looking like the day you laid it for many years.

## TECHNICAL CLASSIFICATION

Laminate floor covering according to EN 13329 and EN 14041 High Density Fibreboard (HDF) E1 DoP KCH\_LFa\_002
