

Our Environmental Product Declaration

In order for environmental product balance sheets to be meaningful, they must be objectively comparable. So to let our customers easily understand and contrast our lifecycle analyses and environmental product data with those of other materials, we have firmly committed ourselves to a policy of total product transparency. We openly and voluntarily communicate the ecological balance sheets of our wood-based products in our Environmental Product Declarations (EPDs). Each EPD is issued by the Institute Construction and Environment e.V. (IBU) in a format which was developed on the basis of internationally valid ISO standards in close collaboration with building and environmental authorities in Germany.

We stand for ecology

The only way to master major challenges is for all players to pull on one rope. One of the biggest and most urgent tasks facing humanity today is to protect the environment. 'Together we are strong!' – this statement also applies to achieving the sustainability goals we have set ourselves. All of our staff are involved in protecting the environment on a day-to-day basis. Each and every one of them is appropriately informed, instructed and trained. This ensures that every department has the environmental expertise it requires. We use our 'management for the earth' programme to raise the level of environmental awareness in the entire SWISS KRONO team. Our environmental management efforts focus on achieving the eco-efficiency defined in our corporate objectives. Every product that leaves our factory must exhibit both excellent price/performance and superb environmental compatibility. This starts with the exclusive use of legal, certified raw materials from sustainably managed forests, continues with rigorously monitored production, and is also ensured during subsequent utilisation and ultimate disposal of our products.

We have big plans

We have a clearly defined goal: we want you, us and future generations to be able to enjoy living in good health on our unique blue planet tomorrow as well. We are therefore continuing to develop eco-friendly wood-based materials which are healthy for you and the environment alike. Right now we are preparing EPDs for all of our Kronotex laminate floorings to facilitate direct comparison and checking of their environmental benefits.

Our Environmental Product Declarations (EPDs) are globally acknowledged and accepted Type III environmental labels conforming to ISO 14025.

KRONOTEX FLOORS FOR LIVING

A floor is the foundation for every type of room design, and hence the basis for creating one's own sense of what life should be all about. For this purpose, Kronotex opens up a completely new world for you. Experience laminate floors which meet all demands, which feature unique aesthetics and top-class quality. There is no limit to where your imagination can carry you!

Surfaces

Characteristics

Kronotex floors are low-maintenance and hard-wearing.

Kronotex floors are flame resistant.

Kronotex floors are largely resistant to cigarette burns.

Kronotex floors are non-fading and retain their brilliance over many years.

Kronotex floors are rugged, load and impact-resistant.

Kronotex floors are abrasion-resistant.

Kronotex floors are produced from natural sustainable raw materials.

Kronotex floors are comfortable underfoot.

Kronotex floors are well suited for installation over subfloor heating.

Kronotex floors are stain-resistant

Individual features

These panels feature a 45° sloped edge. When they are joined together, a V-groove forms, producing a natural solid wood character. V4 - all the way round

USE CLASS 33 | AC 5

PANEL 1845 x 244 x 10 mm **BOX** 4 Panels | 1,800 m² **PALLET** 42 Boxes | 75,600 m² The best and more. This is the promise of the new decors of the **MAMMUT** plus Collection from Kronotex. While exhibiting the same technical mastery as all MAMMUT flooring, this new line offers you even more authenticity, an even larger choice of styles and even greater perfection. Apart from its incredible robustness and versatility, **MAMMUT** plus also raises the bar in other ways. Its extra-wide panels complement the existing extra-long and extra-sturdy versions of the MAMMUT family. And the decors seduce you with their elegantly authentic natural wood look, which can't help but add posh country-style comfort to your home.

EXQUISIT plus

USE CLASS 32 | AC 4

PANEL 1380 x 244 x 8 mm **BOX** 8 Panels | 2,694 m² **PALLET** 42 Boxes | 113,138 m² This brand's decors feature a wide range of carefully selected, exquisite natural wood styles. Their sublime, evenly embossed, subtly gleaming surfaces and virtually nature-identical grain drive home this collection's perfection and exceptional quality. The extra-wide panels invite you to create elegant, spacious rooms with a very special, warm feel-good ambiance. The precisely milled V-grooves are the finishing touch to this attractive, real-looking plank floor.

EXQUISIT

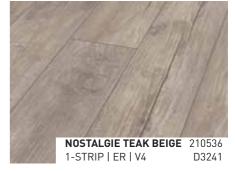

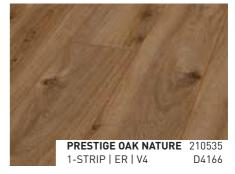

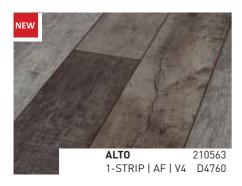

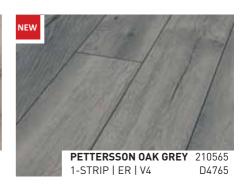

EXQUISIT

USE CLASS 32 | AC 4

PANEL 1380 x 193 x 8 mm **BOX** 8 Panels | 2,131 m² **PALLET** 56 Boxes | 119,320 m² **EXQUISIT** is a floor which is as noble and natural as wood. It is perfection itself, radiates warmth and comfort and is as pleasant to walk upon as solid wood. Its synchronised, embossed grain and the matt surface shimmer give it an authentic structure and create a warm, natural atmosphere. And the carefully milled V-groove also contributes to the typical, representative floorboard look.

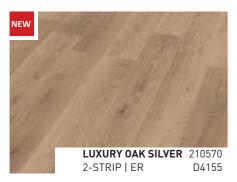

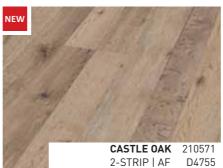

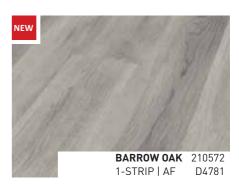

DYNAMIC plus

ONLINE FLOOR STUDIO

Experience the effect of differing woods, ornamentation, wall and furniture colours in an accurate representation of any room. The online floor studio is the ultimate tool for both end user and salesman.

Colour selector

With one you can select the appropriate shade and tone from our whole collection.

Additional selection criteria

These offer the perfect opportunity to narrow down your search for the perfect laminate. You can select from various qualities, including the type of element, the decoration number or the strength.

Surface view

Allows you to view elements from both head-on and in perspective.

Notes

Gives you the opportunity to get extra information about any of our products simply and conveniently.

The link function

With the link function, you can put your ideas before customers, suppliers, users and planners.

PANEL CONSTRUCTION

Kronotex laminates consist of at least four stable layers which ensure the extraordinary durability and unique quality of Kronotex floors.

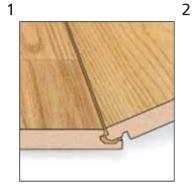

- A The top surface of the flooring consists of a specially resistant protective overlay film. This is fused with an attractive resinated decorative film into a practically abrasion-proof, hardwearing surface.
- **B** Extremely dense HDF fiberboard forms the supportive core (HDF, E1).
- **C** On the undersurface of the core a dampnessimpeding stabilization film ensures and preserves the high structural stability of Kronotex laminates.

The CLIC-System

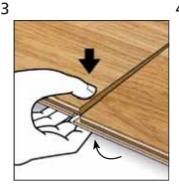

Installing a floor becomes child's play: A fingertip is enough to join panels – simply unpack, lay, snap together and done. No effort involved – your hammer and block can stay in the tool box.

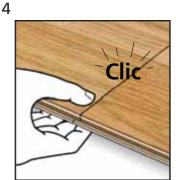

- Much easier to install.
- Up to 50% guicker to install.
- · No hammer, tapping block and pulling bar required.
- · Safe and stable.
- You can walk on the floor immediately after installation.

Long side Short side

TECHNICAL INFORMATION

What counts is the right base

Once you have decided for a laminate floor, when quality and appearance are a perfect fit, then you need to check the requirements for perfect installation. Very important is a suitable subfloor:

- Kronoply OSB
- old flooring such as wood, firmly-adhering PVC, dry ceramic, linoleum
- cement screed (max. residual moisture: 2.0 Cm%)
- anhydrite cement and anhydrite flow cement screed (max. residual moisture: 0.3 Cm%)
- magnesia screed (max. residual moisture: 3.0 Cm%)

Have a screed specialist in your area give you a residual moisture report!

Wet rooms, damp rooms, saunas, carpeting and xylolith are not suitable subfloors. The subfloor must be dry, level, firmly affixed and clean. minor unevenness can be compensated with an underlay mat or – if exceeding 3 mm/m – sanded down or leveled with a filler.

Cleaning and care

Kronotex flooring is not only hygienic but also very easy to look after.

- Sweep the dry floor with a soft broom or use a vacuum cleaner.
- marks and dirt can be wiped off with a slightly damp cloth, following the grain of the plank.
- For stubborn marks, please use Kronotex cleaner.
- Please use felt pads under furniture and soft rubber castors on chairs.
- Place door mats in special areas (hall, entrance). In industrial buildings, provide footwells.
- minor damage to the floor can easily be repaired with the Kronotex repair kit.
- In case of more serious damage, please consult a specialist.

Floor heating - no problem

Kronotex laminate floors can be readily installed upon underfloor heating, serve well and even help to save on heating costs.

- Be sure to heat mineral underlays before flooring installation to eliminate any excess dampness.
- Have a heating specialist in your area give you a heating report.
- Ensure that during installation, the surface temperature of the floor is at least 15 °C (60 °F).
- For dampness insulation and as a vapor barrier, use a PE film (0.2mm) underlayment. For sound absorption you can use PE foa m, Kronotex underlay mat or Kronotex Laminate flooring with Sound Design.
- At the beginning of each heating period, when you first turn on the underfloor heating, raise the temperature gradually in 5 °C (9 °F) increments per day until you reach the desired temperature. The floor's surface temperature should not exceed 26 °C (80 °F).

Quality on principle

Not only do Kronotex floors meet the prescribed norms, they consistently exceed them! This is possible because Kronotex adopts a fully-integrated approach to production (from the tree through to the finished panel), and has numerous control and measuring devices at its disposal. For this reason, Kronotex can offer guarantees which go far and beyond warranties under law. You will be hard pressed to find any other producer who can do likewise.

Kronotex GmbH & Co. KG (in the following: Kronotex) provides buyers in addition to the unencumbered guarantee under law, an additional guarantee covering the abrasion resistance of the floor's surface. It extends from the date of purchase and covers the products as follows:

as described in the care instructions. Claims under guarantee are valid only if submitted within 30 days of ascertaining damage and accompanied by the original receipt from the retailer. In investigating a guarantee claim, Kronotex retains the right to examine the floor in question on site.

CONDITIONS OF GUARANTEE

Kronotex laminate panels must be checked before and during installation for any defects. No liability is accepted for laminate flooring installed despite visible defects. Kronotex laminate floors must be installed properly according to the instructions, in a dry room, and in accordance with the respective use class. No liability is accepted for Kronotex laminate floors installed in damp rooms. Abrasion areas on Kronotex laminate floors must be clearly visible and at least 1 cm² in size. And in particular the design layer must be completely abraded. No liability is accepted for abrasion on the edges of the elements or for unusual or improper use, and in particular for damage caused by mechanical stress. Validity of guarantee is dependent on regular cleaning and maintenance of Kronotex floors.

OUR GUARANTEE

In cases falling under guarantee, Kronotex will deliver a replacement for the damaged element. If the flooring in question is no longer available, then the buyer can choose a replacement of equal value from the current Kronotex product line. Since an annual 10% depreciation in the value of Kronotex laminates can be assumed, delivery of a compensation product is dependent on payment of the appropriate difference by the buyer. No liability is accepted for further damages, especially consequential damages such as those incurred during installation or removal, or transport costs for damaged Kronotex laminate floors.
