

HARO®
Quality Flooring

A woman with long blonde hair, wearing a bright orange long-sleeved top, blue jeans, and brown suede boots, stands on a dark wood-grain laminate floor. She is smiling and looking towards the camera, with her hands in her pockets. Behind her is a large window looking out onto a city street with multi-story buildings. On the windowsill, there are two orange circular cushions. To the right of the window, there is a red vase with pink flowers and a small tray with a bottle and glasses. In the foreground on the right, there is a small black metal side table with a geometric design.

ATE FLOORS – BETTER

WELCOME TO HARO

Company management in
the fourth and fifth generations:
Peter Hamberger and
Dr. Peter M. Hamberger

Founded in 1866, our family business has a tradition in woodworking that goes back more than 150 years. Our love of natural wood and our awareness of quality and design have made us Germany's leading parquet manufacturer. We produced our first laminate floors as early as 1987 and now have customers in more than 90 countries. With our special expertise in the area of wood, we bring the best of two worlds together in our HARO Laminate Floors: natural styles that are almost indistinguishable from wood and a technical construction that makes the floors particularly hard-wearing and especially easy to clean and maintain. And with the quietest laminate floors in the world, we offer a very special floor that makes rooms calm and quiet. We would be very pleased to convince you of our HARO Laminate Floors through the diversity of our product range and the beauty of our wood styles.

HARO *LAMINATE FLOOR*

THE MOST BEAUTIFUL WOOD STYLES: NATURALLY FROM HARO

HARO has 150 years of experience with wood. This is why no one knows better what a beautiful, trendy wood floor should look like, and how this look can be authentically reproduced in a laminate floor. This knowledge makes HARO inimitable:

As a parquet specialist, HARO manufactures laminate flooring that is virtually indistinguishable from real wood parquet.

In addition, HARO Laminate Floors hardly need any maintenance. Dry cleaning with a broom or vacuum cleaner is sufficient for regular cleaning. Occasional damp cleaning with clean & green active, the ecological cleaning agent especially designed for the Laminate Floors by HARO, is completely sufficient. The result is amazing - a laminate floor that will remain as beautiful as real parquet for many years to come.

-
- HARO Laminate Floors have the most beautiful wood styles
 - Just like parquet, the surface textures are authentic down to the last detail
 - HARO Laminate Floors are virtually indistinguishable from original parquet flooring
 - HARO Laminate Floors are particularly easy to clean
-

HARO LAMINATE FLOOR

THE WORLD'S QUIETEST LAMINATE FLOOR: HARO TRITTY SILENT CT

With the invention of the world's quietest laminate floor, HARO has succeeded in what nobody thought was possible: the reduction of indoor sound by 60 percent compared to standard laminate floors – a unique gain in comfort. This is why HARO TRITTY SILENT CT is ideal for rooms in which people work and play every day, for instance in living rooms or children's rooms. The SILENT CT technology is available for all TRITTY Series, except for the NKL 31 special edition.

**Fold Down
locking system**

-
- Reduction of indoor sound by 60%
 - Measured and confirmed by the independent testing institute IHD Dresden
 - It was given the "HolzLand Award" as the "most innovative product for the end consumer" and received the grade "Very Good" from the "Heimwerkermagazin" DIY magazine.
-

HARO LAMINATE FLOOR

THE EASIEST METHOD OF INSTALLATION: TOP CONNECT

The Top Connect connection system makes installing the floor child's play and saves time – no tools are needed: simply angle in the floorboard, push it against the already laid board and press it down.

Fast installation and high quality.

**Fold Down
locking system**

-
- Intuitive installation of boards
 - Easy, quick and without any tools
 - Matching accessories are all available from HARO:
e.g. Insulation underlays, Skirtings, Mouldings
and much more
-

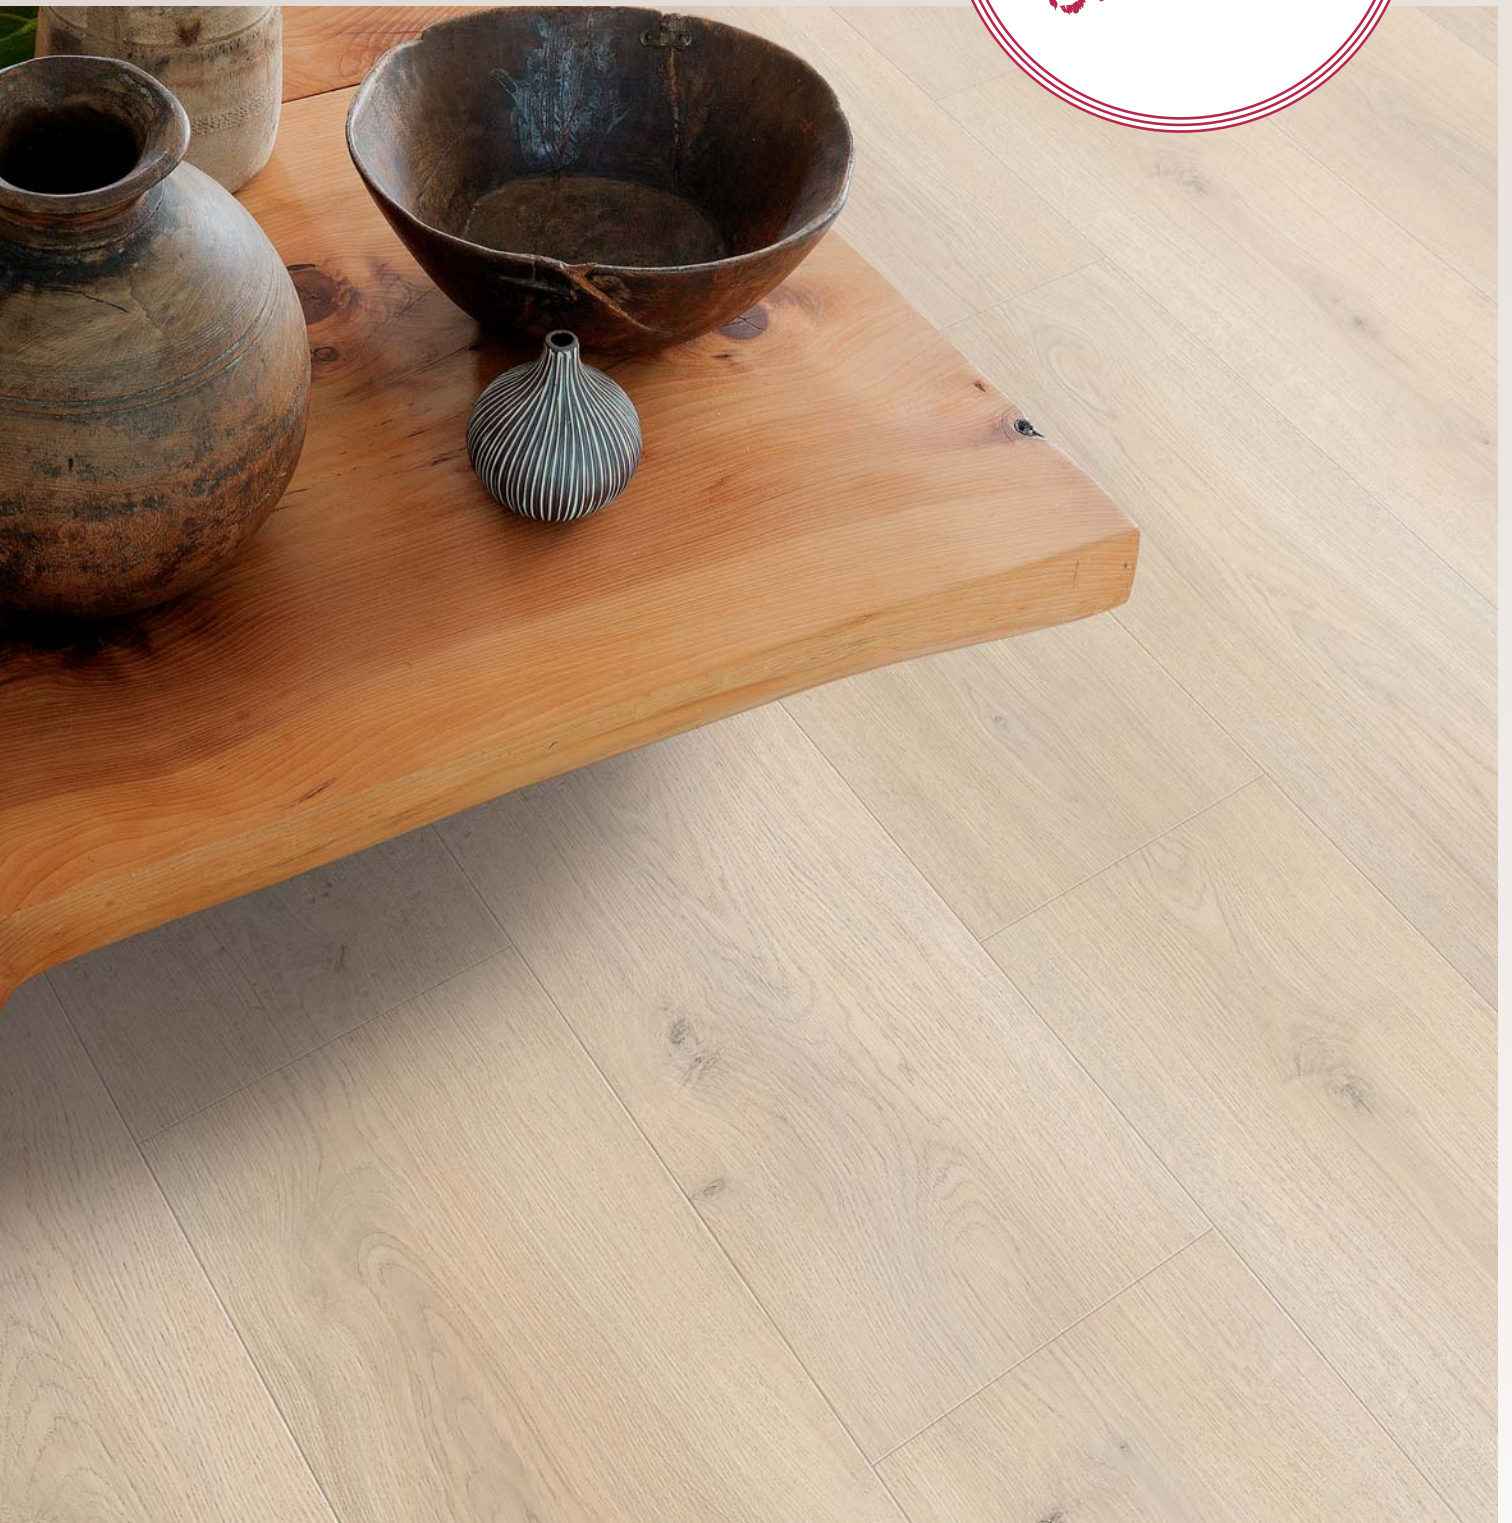

HARO *LAMINATE FLOOR*

HARO LAMINATE FLOORS ARE EASY TO MAINTAIN

HARO Laminate Floors are easy to clean and maintain, while they keep their timeless beauty. Dry cleaning using a vacuum cleaner or a broom is all that is necessary. If damp cleaning is unavoidable, we recommend the clean & green active cleaner for the regular cleaning of laminate floors. It is eco-friendly and specially designed for Laminate Floors by HARO The care of HARO Laminate Floors: quick, easy and eco-friendly.

HARO LAMINATE FLOORS QUICKFINDER

THE EASIEST WAY TO YOUR DREAM FLOOR: HARO RANGE WITH SYSTEM

HARO has an impressively large selection of Laminate Floors – on-trend styles, different designs, and different formats and qualities depending for all uses and areas of application. The following explanation of the floors' properties will help you find the perfect floor for your requirements.

"HERE, I CAN FIND THE IDEAL FLOOR WITHOUT
LOSING TRACK."

Series

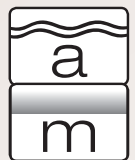

The load capacity and the thickness of the boards determines the classification into levels of use and the series.

Format

The format of the board significantly determines the impression a room makes.

Finishes

Eight different surface textures create the floor's look and feel.

HARO LAMINATE FLOORS QUICKFINDER SERIES

LAMINATE FLOORS BY HARO ARE THE PERFECT FIT: FOR EVERY ROOM AND APPLICATION

Corridors and living rooms are highly frequented areas where the floors are particularly exposed to high levels of footfall. For this reason, laminate floors installed here must be able to withstand substantial amounts of wear and tear. After all, you should be able to enjoy your beautiful floor for many years to come. On the other hand, rooms that are less exposed to wear and tear, such as bedrooms, do not need a floor with special features such as moisture protection, which is needed in bathrooms and kitchens.

HARO LAMINATE FLOORS QUICKFINDER FORMATS

THE RIGHT FORMAT FOR EVERY ROOM

No matter what the room's layout is, no matter what the furnishing style or wallpaper is like or in which colour the walls are painted: HARO always has right board format. Gran Via 4V as a long board creates a greater air of spaciousness; the narrow and short Loft 4V reflects a rather Mediterranean style and looks great in smaller rooms. Plank 1-Strip is a true classic with its unfussy wood character.

"WITH THE LARGE VARIETY OF THE TRITTY
FORMAT, I CAN CREATE DIFFERENT EFFECTS
WITH ONE BASIC COLOUR."

GV

Campus

90

GV

← How to find your way around the product pages:
The black circle symbol indicates the format of your TRITTY Laminate Floor.

GV *Gran Via 4V: The Gigantic One*

- Gives rooms a more spacious appearance.
- The board has an authentic character thanks to the format and the bevelled edges on all four sides
- Dimensions: 243 x 1282 mm (9 9/16" x 50 15/32")

Cam pus *Campus 4V: The Trendy One*

- Classic board length with a generous width
- Gives even vibrant styles a harmonious across the whole surface
- Dimensions: 243 x 1282 mm (9 9/16" x 50 15/32")

Loft *Loft 4V: The Slim One*

- Looks particularly elegant in smaller rooms
- Bevelled edges on four sides for a visual structure of the floor
- Dimensions: 135 x 1282 mm (5 5/16" x 50 15/32")

LA *Plank 1-Strip: The Classic One.*

- Almost indistinguishable from real parquet
- Modern-classic board aesthetics
- Dimensions: 193 x 1282 mm (7 19/32" x 50 15/32")

2- Strip *2-Strip: The Distinct One*

- Two parallel strips per board element
- Gives rooms a distinctive character
- Dimensions: 193 x 1282 mm (7 19/32" x 50 15/32")

3 Stab *3-Strip: The Vibrant One*

- Three parallel strips create a vibrant look
- Classic styles
- Gives large areas a clear structure
- Dimensions: 193 x 1282 mm (7 19/32" x 50 15/32")

HARO LAMINATE FLOORS QUICKFINDER FINISHES

HARO LAMINATE FLOORS SHOW THEIR QUALITIES SURFACES WITH CHARACTER

The surface treatment protects and refines the laminate floor. In order to give the individual appearance of each board its final touch, the style is first chosen by the designers. Then a finish is chosen that best matches the look of the board.

BEVELLED EDGES ON THE LONG AND SHORT SIDES

The edges are bevelled on both sides and ends – for an even more vivid impression. Experts call this "long and short side bevelling".

← How to find your way around the product pages:
This letter symbol indicates the finish of your desired floor.

"IT LOOKS SO AUTHENTIC, IT'S AMAZING.

JUST LIKE REAL WOOD."

PORES

Slightly pore-textured and silky shine finish.

PORES MATT

Slight pore texture and natural matt look.

BRUSHED

With the feel of real wood grain.

TEXTURED MATT

Similar to real wood grain. The matt appearance underlines the natural look.

SOFT MATT

A distinctive velvety soft surface. Natural and matt with a slight gloss effect in the texture.

AUTHENTIC

Almost indistinguishable from real wood. Texture and style match perfectly. The gloss level emphasises the character and natural look of the wood reproduction.

AUTHENTIC MATT

Almost indistinguishable from real wood. Texture and style match perfectly. The surface has a natural oil character. The Plank 1-Strip designs also have a slight shine effect in the pores.

AUTHENTIC SOFT

Almost indistinguishable from real wood. Texture and style match perfectly. The surface feels velvety and soft.

HARO ACCESSORIES

HARO ACCESSORIES ALWAYS MATCH. HARO not only offers beautiful, high-quality laminate floors that are easy to clean – we also offer the matching accessories for your laminate floor. Manufactured in the same quality and perfectly matched to the look and characteristics of your laminate floor – for a better feeling when you restyle your home. From skirtings to insulation underlays – we offer a wide range of accessories for every requirement from a single source.

(cube), Oak Italica Smoked

"THE BEAUTIFUL SKIRTINGS ADD THE FINAL TOUCH TO MY NEW LAMINATE FLOOR."

Skirtings and mouldings are very important details to create a harmonious overall impact of the room. In our range of accessories, you will find numerous options to give your desired laminate floor the finishing touch, both visually and technically. For the TRITTY 200 Aqua Series, it is, of course, also available in a water-resistant variant.

Oak Engadin skirting
19 x 395 mm (3/4" x 1 17/32")

Oak Engadin skirting
19 x 58 mm (3/4" x 2 9/32")

Oak Engadin skirting
15 x 80 mm (19/32" x 3 5/32")

TRANSITION MOULDING - STYLISH TRANSITIONS FROM DISTINCTIVE TO SUBTLE

When installing different floors, a matching transition is an important factor, both visually and haptically. For this, we offer transition mouldings in various colour designs. You can either set striking accents or create subtle transitions. Our transition mouldings can also create a perfect transition if the floors slightly differ in height.

STAIR NOSING

"THE WAY THE STAIRCASE BLENDS
INTO THE ROOM ALL BY ITSELF IS
A REAL EYE-CATCHER."

Stair nosings create a wonderful connection: They merge staircases that lead upwards or downwards with the laminate floor to create an aesthetic whole. This gives open room concepts an elegant and harmonious look, making Laminate Floor TRITTY 100 and TRITTY 200 Aqua a true alternative for an elegant interior design.

Stair nosing with
edge protection

INSULATION UNDERLAYS

We generally recommend an insulation underlay for all hard subfloors. They increase the elasticity of the floor, absorb indoor and footfall noise, and level out minor irregularities of the floor.

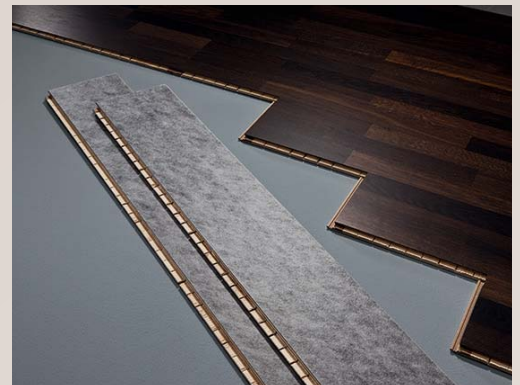

SILENT PRO INSULATION LAYER

Our Silent Pro insulation layer offers excellent insulation against footfall and room sound. The high elasticity provided by the mineral fillers creates a pleasant "forest floor effect".

We particularly recommend the integrated insulation layer on the back of the board (available for areas over 10 sq.m). Due to the fixed connection between parquet board and the insulation underlay, an impairment of the insulating effect due to cavities or gaps is avoided.

Another advantage: Installation and insulation are carried out in a single work step.

It is very pleasant, when the sound level in the room is perceptibly reduced.

INDOOR SOUND REDUCTION 30 %*

FOOTFALL SOUND REDUCTION 18 DB**

The fact that your steps do not sound like thunder will be especially pleasing for your neighbours.

* Maximum individual values achieved in accordance with the EPLF Impact Hammer test (compared to reference floor)

** In accordance with DIN 140-8

"I NEVER THOUGHT IT WOULD
BE SO EASY TO MAKE A LAMINATE FLOOR
SO QUIET."

THE WORLD'S QUIETEST LAMINATE FLOOR

HARO TRITTY SILENT CT

Forget annoying stomping, heel clacking and other sounds! Our recently developed Silent CT system reduces room sound by a sensational 60% compared to standard floating laminate floors with insulation. This is the result of HARO's ComforTec innovation for a full glue-down installation with the subfloor. The result: You can walk with the pleasant feeling and acoustics of a glued-down floor.

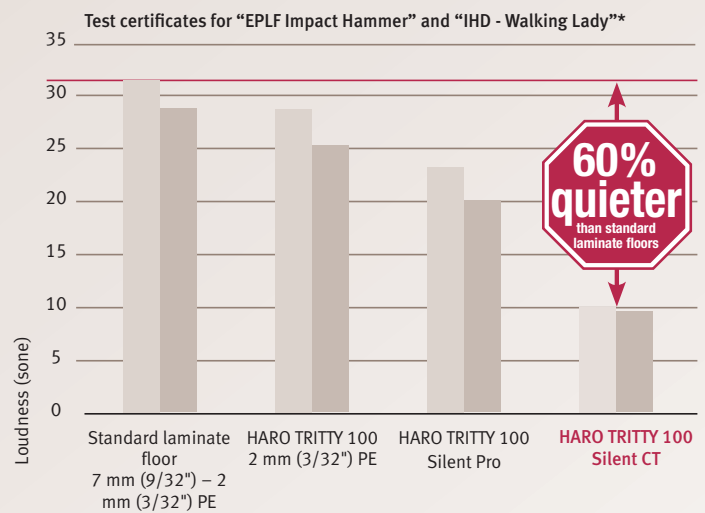

- 60% quieter
- Can be installed without tools thanks to TopConnect
- Suitable for use with underfloor heating
- Warranty up to 25 years
- Available in the Series TRITTY 90, TRITTY 100 and TRITTY 200 Aqua.

Audibly quieter – as proved by independent sound level tests:

INSTALLATION

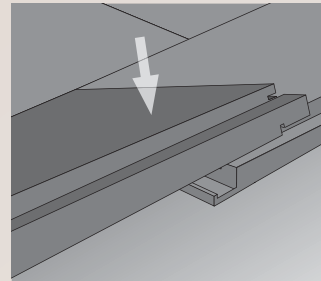

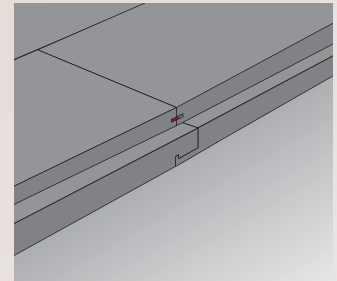

5G Fold Down locking system

ANGLE IN

PRESS DOWN

DONE

PROBABLY THE WORLD'S EASIEST
INSTALLATION SYSTEM:
TOP CONNECT

All those who have always wanted to install their own laminate floor but have never dared to can now get the real hands-on experience. With Top Connect, which is possibly the world's easiest installation system, it is easy to create the most beautiful floor designs with extraordinary

stability. The boards are angled in at the long sides and interlocked at the short sides with a small amount of pressure. The floor fits perfectly and is ready to be "lived on" immediately. It is just as easy to take out if you move house.

UNDERFLOOR HEATING/ UNDERFLOOR COOLING

Our Laminate Floors are not only suitable for installation over underfloor heating and cooling, they are actually ideal for it. The technical construction of our floors ensures that warmth and cooling can easily get through. This means you can save heating costs and enjoy pleasantly regulated underfoot warmth during the heating period, and a comfortable room temperature in warmer months.

CARE

EASIER CARE TO MAINTAIN BEAUTY AND VALUE: By using clean & green, you are doing everything right. This range of care products is specially designed for HARO Laminate Floors and can be used without worry. With clean & green, you not only clean and maintain your floor, but can also be certain that you are preserving its value. You do not have to worry about whether these products are too strong for the surfaces or leave marks. In addition, they are in no way harmful to the environment.

Intensive Cleaner active

Eco floor cleaner concentrate.
For the basic cleaning of parquet.

Floor Care aqua shield

Durable refurbishing and
protection of prefinished parquet.

"I'M DELIGHTED AT HOW QUICK AND
EASY IT IS TO CLEAN MY FLOOR -
WITHOUT HAVING TO USE ANY
HARMFUL SUBSTANCES."

CONSTRUCTION

CONSTRUCTION HARO SPECIAL EDITION
NKL31, TRITTY 90/100

BEAUTIFUL FROM THE OUTSIDE –
QUALITY ON THE INSIDE

HARO Laminate Floor has been a lasting success story for over 25 years. This is not only due to particularly authentic wood reproductions, but also because of the high quality and elaborate technical construction of our laminate floors.

1. Overlay with special impregnation (durable protective layer)
2. Decorative laminate with special impregnation
3. Special moisture control HDF-E1 coreboard aquaResist
4. Balancing laminate
5. Optionally available with integrated Silent Pro luxury insulation layer or with Silent CT technology (suitable for use with underfloor heating)

CONSTRUCTION HARO TRITTY 200 AQUA

1. Overlay with special impregnation (durable protective layer)
2. Decorative laminate and sheets of kraft paper with special impregnation
3. Special moisture control HDF-E1 coreboard aquaResist
4. Several sheets of balancing laminate (moisture repellent)
5. Optionally available with integrated Silent Pro luxury insulation layer or with Silent CT technology (suitable for use with underfloor heating)

The overlay (the upper layer) is almost as hard as a diamond and is hard to beat when it comes to durability, scratch resistance and strength.

The decorative layer made out of a special lightfast paper guarantees a high grade of naturalness and bright, brilliant colours – this is owed to the process in which it is elaborately printed and soaked in melamine resin.

The softwood coreboard ensures maximum dimensional stability and protection from moisture.

The balancing laminate on the back of the laminate floorboard balances out the tensions to the overlay. It prevents the boards from warping and offers additional moisture protection.

"THERE IS A SUITABLE LAMINATE
FLOOR – EVEN WITH MOISTURE
PROTECTION – FOR EVERY LIVING
SPACE."

RECOMMENDED AREAS OF USE

THE RIGHT SERIES FOR EVERY NEED

No matter what your requirements are, you will find a laminate floor for your taste at HARO – always with a quality that meets the highest standards. Here you can see at a glance which series best suits your needs.

TRITTY 200 AQUA – ALSO SUITABLE FOR DAMP AREAS

THE NEW TRITTY 200 AQUA SERIES OFFERS ADDITIONAL SECURITY.

Due to the aquaReject moisture-control coreboard, the floor is optimally protected against moisture and also approved for installation in damp rooms (W0-1 in accordance with DIN 18534), such as domestic bathrooms or kitchens. Due to its special impregnation and the highest degree of resistance against swelling, TRITTY 200 Aqua can withstand standing tap water for up to 4 hours.

Thanks to the high level of use 23/33, the floor is also ideally suitable for areas subject to particularly heavy traffic, such as hallways or kitchens.

- It is not suitable for installation in wet areas such as showers or saunas.
- Please note: The subfloor moisture must comply with the standard specifications for installation.
- The installation instructions must always be followed carefully.

"HARO LAMINATE FLOORS: SUPERIOR
IN ALL CRITERIA COMPARED TO
THE STANDARDS."

PROPERTIES LAMINATE FLOOR

SPECIALLY IMPREGNATED TOP LAYER

One quality feature of our laminate floors is the high UV resistance. Due to their special impregnation, the colours remain stable when exposed to sunlight and do not lose their brightness. Another advantage of the impregnation is the resistance to stains and scratches. The high durability of the top layer also prevents the surface from long-term abrasion damage (e.g. through chairs being moved) or heat (e.g. from cigarette burns). In general, the HARO quality guidelines are specified in such a way that they exceed standards by far.

Outstanding visual impact

Excellent price/performance ratio

Dimensionally stable and perfect fit

Suitable for use with
underfloor heating and cooling

Antistatic

Extremely scratch-resistant

Resistant to fading under UV light

Dirt-repellent
and easy to maintain

Double moisture protection
due to aquaTec system

Abrasion resistant

Hardly flammable (Cfl-S1),
tested in acc. with DIN EN 13501-1

Impact and compression resistant

Resistant to cigarette burn marks

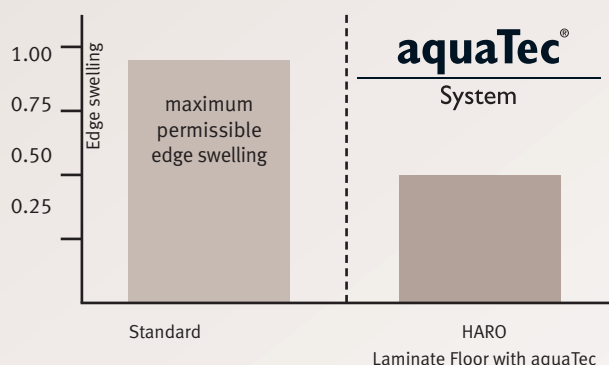

Optionally integrated
sound insulation

MOISTURE PROTECTION

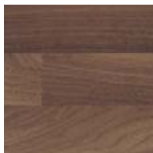

DOUBLE MOISTURE PROTECTION AQUATEC

Thanks to their well-balanced multilayer construction combined with the aquaTec system, HARO Laminate Floors remain stable and in top form at all times.

PRODUCT VARIETY FROM HARO

In its diversity, wood is a fascinating material. We stand by our passion for wood, using its natural appeal, powerful ambience and diverse characteristics in our products to create the foundation for stylish living.

HARO PARQUET
Our Parquet Floors are made exclusively of the highest quality wood. With a HARO Parquet, you can lastingly enhance your rooms and enjoy the highest level of living comfort for many years to come.

DISANO BY HARO
DISANO is not only the perfect solution for modern and vibrant living. DISANO contributes to a healthy living environment and is 100% free from PVC and plasticisers.

HARO INTERIOR
With HARO Interior you can also use the natural charisma of precious wood for wall design and panelling on the sides of the stairs. As a perfect eye-catcher, you will also find the our "HARO Table" here.

PARKETTMANUFAKTUR BY HARO
What emerges here from masterful craftsmanship are floors that are unsurpassed when it comes to elegance and uniqueness. With real workmanship, the most precious woods are processed into top class parquet floors.

CORK FLOORS
For decades, cork flooring was found almost exclusively in children's rooms and day-care centres. This was owed to its underfoot warmth and soft surface. We have made it attractive as a true alternative for stylish living.

CERTIFICATION

The fact that quality is more than just a promise can be seen in our products and their perfectly matching accessories, as well as the numerous certificates we have been awarded. They prove that transparency and diligence are paramount for us when it comes to a healthy living environment and our production processes.

up to

HARO WARRANTY

In addition to the statutory warranty terms, HARO also provides additional warranties for various product groups. Please note the respective warranty conditions.

BLUE ANGEL ECO LABEL

The Blue Angel has certified the environmental compatibility of our products since 1992.

www.blauer-engel.de/uz176

SUSTAINABILITY

Hamberger Flooring GmbH & Co. KG has been PEFC-certified since the beginning of 2004

MADE IN GERMANY

Our quality floors are of the highest-quality German workmanship.

ISO 9001

Our quality management system has been certified in accordance with DIN EN ISO 9001:2008 since 1995. It secures workflows in the company and therefore contributes to maintaining a consistent product quality.

CE

The CE label confirms that HARO floor coverings comply with all essential European safety and health directives.

ISO 14001

With the certification according to DIN EN ISO 14001:2004, we have committed ourselves to active environmental management since 1998.

EPLF

Hamberger Flooring GmbH & Co. KG is a founding member of the Association of European Producers of Laminate Flooring.

ISO 50001

The ISO 50001 standard is aimed at supporting companies in establishing processes and systems necessary to reduce their energy consumption and increase energy efficiency.

VOC-Label

The French VOC label certifies that the emissions of HARO Laminate Floors are entirely non-hazardous.

HARO LAMINATE FLOOR – SIMPLY BETTER
