LAMINATE RANGES TECHNICAL OVERVIEW	58
---------------------------------------	----

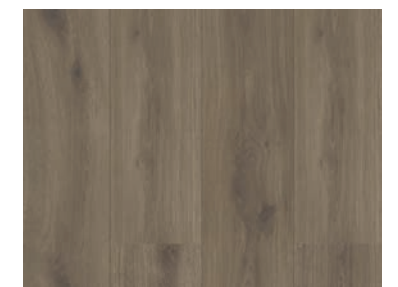

TARKETT: A GLOBAL EXPERT IN DESIGN AND INNOVATIVE FLOORING

At Tarkett, we put as much effort into the appearance of products as we put into their performance. Flooring is a fundamental part of any interior design, and since our floors are built to last, they need to be both stylish and timeless.

That's why we have our own design studio, staffed by some of the most talented designers in the business who have developed our whole new range of laminate flooring. 18 new beautiful and authentic designs, additional trendy colors and a broad range of formats have been created in the finest details to help you realize the interiors of your dreams.

99 decors
17 finishes
18 novelties

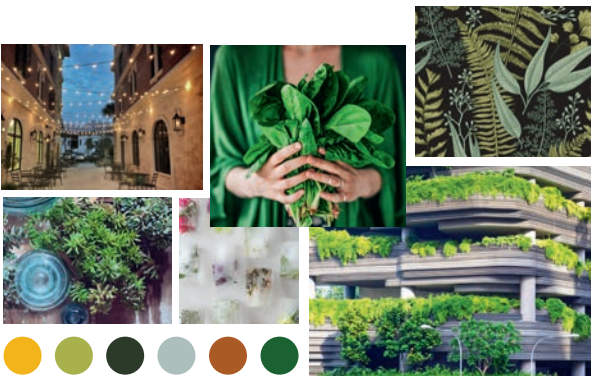

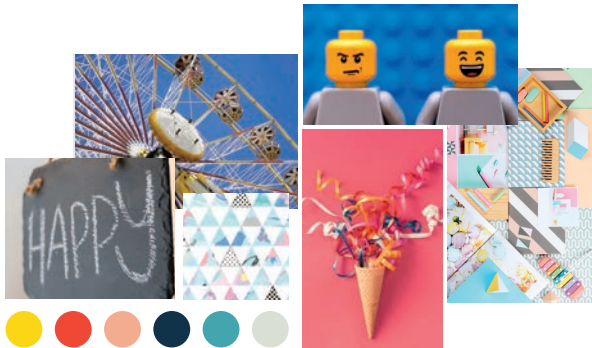

Tarkett laminates authentically interpret the highest quality wood and stone finishes. They are available in a wide range of decors from realistic to artistic, and the choice of widths and lengths makes it easier than ever to create a striking floor design.

DESIGN INSPIRATION

Flooring design at Tarkett drives us to continually look for the perfect interior. That's why we explore global trends in all aspects of daily living, and not just flooring. Because, in the end, everything in the places you live or work has to fit together to create your personal style: wallpaper, furniture, fabrics, decoration and, of course, your floors. Our research led us to four trends that inspire our collection.

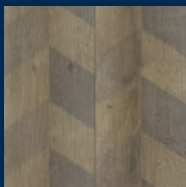

Oh! Happy Days trend is all about finding ways to be joyful and introduce a sense of fun and creativity in life. Being happy and optimistic is often expressed through colors like yellow, bright red or turquoise. We've introduced dark blues, soft greys to light woods like the **Blue Stone** (Loft 832) or the **Delicate Pine** (Vintage 832) that build a foundation for adding expressive and bold colors. Our idea: to offer contrasting and simple designs with which you can play to create your personal space.

Celebrating Seasons reflects everyone's concern for nature and its place in everyday life. We highlight and bring the raw beauty of natural materials inside. Our trend introduces a natural color palette with discreet shades of greens to pale blue, playing with the moods of the seasons through different light settings. A perfect example: the four natural shades of our new **Elegant Oak** (Woodstock 832, Welcome 833 & 1233) design that features an authentic surface embossing for a unique look and tactile sensation.

For this collection, the Tarkett Design team set out to create a collection offering a choice of realistic and artistic wood and stone designs. Inspired by modular flooring layouts that use small pieces to create a bigger effect, we looked to apply this approach to laminate formats. The result: innovative laminate designs never seen before that allow everyone, from professional designers to DIYers, to personalize interiors with a premium quality flooring at an affordable price.

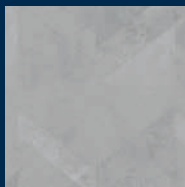

Here's just a few of our recent innovations:

Madison Chevron

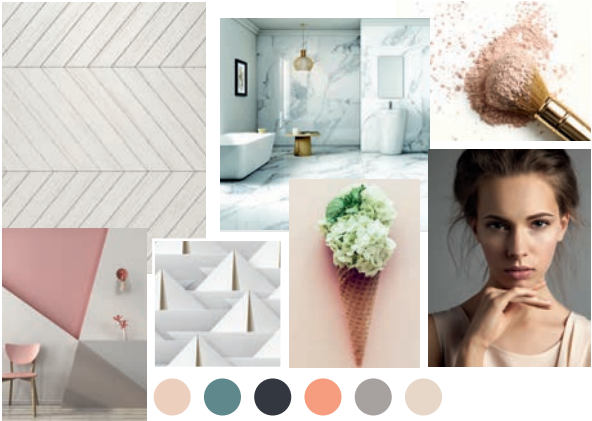

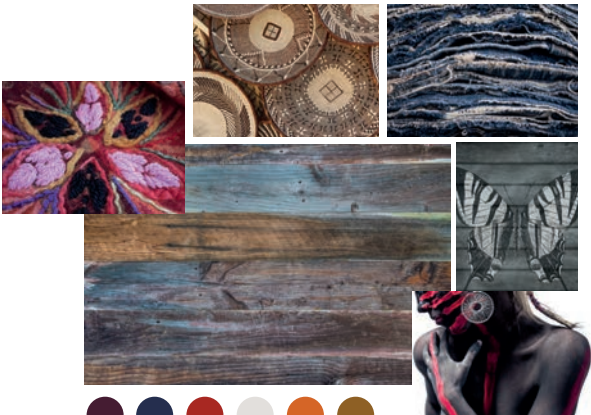

Madison Oak Blonde

Century

Driven
by trends –
inspired
by nature.

New Folk captures the desire to create spaces that share some of original and personal souvenirs from life's travels. You'll find a color palette inspired by handmade objects and pigments, with patterns drawn from ethnic to more contemporary touches. Materials often come with a used or lived in-look. We set out to mix up designs. **Koga** (Loft 832) or **Madison Chevron** (Lamin'Art 832) are ideal for creative interiors where travellers and craft lovers can express their individuality.

Soft Silence updates the romantic spirit. This highly design-oriented and contemporary trend takes us into a sensual and luxurious setting with a boudoir mood. Nude colors play an important role in a palette of wood and pastel hues, with the contrast of tonal greens as well as dark tints and greys. Our **Manor Oak Greige** (Lamin'Art 832) and **Urban Concrete Light** (Loft 832) are two ways we've interpreted this trend so you can create simple and surprising compositions and lift your interiors onto a grander scale.

The luminous graphic pattern of the **Madison Chevron** (Lamin'Art 832) is printed over the **Madison Oak Blonde** (Nordic Soul 832) in a second layer. This combination allows you to create unique and striking installations. Even on its own the Madison Chevron offers great creative possibilities.

With **Century** (Lamin'Art 832) we translated the contemporary chevron pattern into a new dimension. By

using a grey slate, our Design team created a first-of-its kind laminate flooring using a very modern yet classic design language. An added advantage: a beautiful and endless design without visible edges.

We also added new stunning wooden decors and fantastic mineral designs to the range, inspired by the authenticity of these materials and keeping natural worn effects and patina to make them even more realistic.

AMAZING QUALITY IN A CONCENTRATION OF TECHNOLOGY

1

Highly resistant protective surface

Our innovative protective surface ensures a long lasting durability and hygiene. Embossing gives the surface a more realistic texture and allows for sophisticated decorative effects.

2

Premium decorative layer

Made from printed paper, it allows for a wide variety of very detailed designs and beautiful colours and patterns thanks to new high resolution digital printing technology.

3

High density core board to give better resistance

High density fiberboard made in Tarkett factories from more than 80% wood that provides exceptional structural strength and high resistance.

4

Highly stable balancing layer

Protection of the core board from moisture that also guarantees dimensional stability.

MADE IN
GERMANY

At Tarkett, our dedication to quality is a fundamental component of our laminate flooring.

Our range of laminate floors is manufactured in Germany from the highest quality materials and features incredibly strong construction.

10
YEARS
GUARANTEE
COMMERCIAL
USE

25
YEARS
GUARANTEE
RESIDENTIAL
USE

We also produce our own core board to ensure the highest quality level. Backed by the commitment and expertise of a world leader in flooring solutions, our laminate floors meet the strictest European norms and standards for manufacturing, sustainability and environmental standards (ISO 9001, ISO 14001, ISO 50001, OHSAS 18001, WCM).

LAMINATE THE EASY GOING PRODUCT

Looking for a less expensive wood or tile floor? Easy to install, easy to maintain and designed to perfectly imitate the texture of natural materials, Laminate flooring is the perfect and affordable hardwood flooring alternative on the market.

A whole range of decors

Laminate offers even more variety than real wood. The printed decors allow endless possibilities to play with wood essences, stone tiles and colours. With 99 decors, 17 surface finishes, 4 board formats and 4 types of bevelling, our new Laminate Collection has the right product for your interior.

A robust flooring solution

The high density core board offers a top impact resistance and is able to withstand heavy furniture without denting. The top layer protects the surface against scratching and fading, that makes laminate a solution well adapted for rooms where there's lots going on.

Tarkett has developed two unique technologies providing innovative treatments to protect the floor from humidity and improve water resistance.

A comfortable floor

Made from 84% wood, laminate provides natural thermal insulation. Installed with an adapted underlayer, it is even cosier and can provide a good sound insulation. We recommend laminate to bring a cocooning feel to living areas.

Tech3S

A silicone joint protection at plank edges to guard against water damage such as mould, curving and gaping.

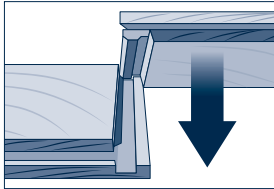

MRTech

Reinforced silicone joint treatment to prevent water ingress, damage or board swelling, adapted for commercial settings and wet rooms.

A quick and easy installation

Quick and without mess, installing laminate is open to all Sunday DIYers! Our laminate floors come with an easy-to-use and fast click system (2-Lock) which takes 50% less time and can be handled by a single person! With minimal subfloor preparation and only a few tools required, you will soon have a smooth and beautifully laid floor ready to use.

A hassle-free maintenance

Our laminate has a hard sealed surface and its overlay is stain resistant. Melamine based, it is an excellent barrier against the growth or spread of germs, contributing to a healthy home environment. Our tight locking systems also prevent dust and dirt from getting stuck on the surface and in between planks, so when cleaning time comes, a vacuum and a humid damp mop with soft detergent is all that is needed.

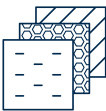

DELIGHT IN THE DESIGN DETAILS

The quality of Tarkett laminate floors can be found in every detail. We have taken special care to make sure our floors offer the design possibilities you are looking for.

Finishes & embossing

When it comes to laminate flooring, every detail counts. Our offer is available in a wide range of finishes, 17 different surfaces from deeply embossed to lighter effects, playing with the gloss reflection from matt to silky&gloss. Our highly innovative 3D technology combines an alternance of gloss and matt effects to give the closest real wood finish.

A variety of finishes, including wood, stone, cement and artistic effects.

- 17 surfaces including:**
- 10 structured
 - 7 Embossed In Register (EIR) treatments to add lifelike traces and patterns to perfectly reproduce wood's natural essence.

Bevelling

We offer three kinds of bevelling to help you create different styles of decor.

No bevel
A simple finish for natural look

Double-sided
V-bevelled on the long sides to enhance the impression of length

Four-sided
V-bevelled on all four sides for an authentic wood look

Micro bevels
Square-bevelled on the long sides to create a vintage look

Board formats

The choice of plank formats makes a huge impact on the style of the room. For total design flexibility, Tarkett laminate floors come in a wide range of formats.

Standard planks
The elegance of a classic wooden floorboard

Collections: Woodstock 832, Vintage 832, Nordic Soul 832, Essentials 832, Lamin'Art 832, Welcome 833/1233

Large planks
Ideal to create wider space impression

Collections: Lamin'Art 832

Long planks
The best choice for highly architectural spaces

Collections: Long Boards 932

Tiles
Recreates the format of stone slabs and tiles for a modern look

Collection: Loft 832

BUILDING A SUSTAINABLE FUTURE

At Tarkett, we strive to support both our professional clients and customers in creating healthy, beautiful and sustainable living spaces. Working with industry partners, we're bringing our best thinking and efforts toward making a positive impact on people and the planet.

Designing for life

We design our flooring solutions for life, thereby contributing to people's well-being and good health as well as preserving natural resources.

Good materials

Our laminate products are made of 84% natural materials, mostly wood.

The wood and raw materials we use in our production are handled in a sustainable way. Our plant is FSC* and PEFC** certified. We purchase our wood (PEFC certified) in a radius of 150 km from the factory, from well managed forests having a positive impact on CO₂ emissions.

Resource stewardship

Our laminate production center in Germany aims to minimize waste and upcycle manufacturing waste.

- Both ISO 14001 and ISO 50001 are used to continuously improve our energy management
- We have our own water treatment system: no waste/ polluted water from the production site flows into the public sewage systems.
- We have our own energy production plant on site. The majority of our production waste is re-used to produce our energy. The hot gas and steam produced by our energy plant is used in the wood fiber process production. In 2016, the electric production at Laminate Park was enough to power nearly 4 000 houses for a year (15.200 MWh).

People friendly spaces

We use no materials that might pose a risk to the indoor living environment and during recycling.

• Blue Angel Certification

Our laminate floors are certified by German government ecolabel Blauer Engel which sets high standards for environmentally friendly product design.

• Good indoor air quality

As demonstrated by our A+ certifications, our laminate TVOC (Total Volatile Organic Components) emissions are well below the limit established by the norm DIN EN 14001:2015.

• Clean product to install and maintain

The glue-less nature of our laminate floors makes it a clean product to install and its maintenance requires no chemicals.

www.blauer-engel.de/uz120

Closing the loop

At the end of its life-cycle, laminate flooring can be reused or recycled as an energy source; it is totally combustible and can be incinerated without dangerous emissions.

Driving collaboration

We seek ways to work more closely with our customers, suppliers and industry partners as we believe in a collaborative approach to respond to global challenges

EASY SELECTION

It's easy to explore our 2018 collections thanks to an optimized range and a double way to refine your choice: four types of design or three product constructions.

3 product constructions and 4 main types of design.

		Design				
		Classic wood		Rustic wood		
Construction	Professional	Welcome 833 & 1233				
	Premium	Woodstock 832	Nordic soul 832	Vintage 832	Loft 832	Lamin'Art 832
		Long Boards 932				
	Core	Essentials 832				

Design

- Classic Wood:** All the charm of an authentic parquet look
- Rustic Wood:** Textured finishes with knots and cracks for a vintage wood look
- Stone:** Tile and concrete appearance for a modern look
- Artistic:** Eye-catching designs to give any interior a singular look

Construction

- Core:** Standard laminate construction and format, no bevel
- Premium:** Engineered construction, various embossing choice including Embossed In Register (EIR), choice of more colors and formats, fully coordinated accessories, beveling option.
- Commercial:** Specific reinforced construction for high traffic commercial use, no bevel for easy maintenance and high resistance, fully coordinated accessories.

Essentials 832

A large choice of wood species with our core quality standards.

From exotic species with their reddish woods, classic oaks in very natural shades of white, blond and grey, woods with grey and red tones and even fantasy decors. All the essentials of decoration are available in this collection.

Long Board 932

The good old ranch style floor boards have taken a trendy twist.

Their large dimensions lend a very natural look to the deco and at the same time they give perspective to the room they are laid in. The traditional pine with a vintage look has made room for the classic oak that will bring volume and modernity to a classic living room.

THE RIGHT ACCESSORIES FOR A PERFECT FINISH

Our Laminate collection comes with a full range of coordinated skirting and additional accessories. Please check with your local Tarkett representative for more information.

100% matching concept for all skirting and profile offer.

Skirting

LARGE	
Dimensions	18 x 58 x 2400 mm 17x 60x 2 400mm
Compositions	MDF
Fixing system	Glue
Packaging	1UN = 5 pces

EXTRA LARGE	
Dimensions	15 x 90 x 2400 mm
Compositions	MDF
Fixing system	Glue
Packaging	1UN = 5 pces

- A large and extra large white skirting are also available (possibility to paint it).
- Clipholders are available to install the skirting if you do not want to use glue.

Profile

TRANSITION For smooth transition between 2 floors	
Dimensions	10 x 44 x 2000 mm
Compositions	MDF
Fixing system	Fixing strip
Packaging	Available in single unit

REDUCTION For nice finish at the end of the floor	
Dimensions	12 x 44 x 2000 mm
Compositions	MDF
Fixing system	Fixing strip
Packaging	Available in single unit

- Aluminium transition or reduction profiles are also available.

Ensure a worry-free installation

Different foams are available to make the floor more comfortable to walk and stand on. Choose the solution according to your needs.

PE FOIL	
PE-FOIL 200µm	
2 x 13 m	
1 Unit = 4 rolls in a carton	
Vapour barrier	

STANDARD FOAM	
Recyclable polyethylene, freon free	
1m x 20 m = 20m²	
1 UN = 4 rolls	
Vapour barrier	
Noise and heat insulation (18 dB)	
Floor unevenness correction	

SOUND BLOCK FOAM (3in1)	
Recyclable polyethylene, freon free, with closed cell structure	
1,2m x 16,7m = 20m²	
1 UN = 1 roll	
Vapour barrier	
Noise and heat insulation (19 dB)	
Floor unevenness correction	

Protect & preserve your laminate floor

Bio clean – Economical and effective general purpose cleaner.

- Gentle on the skin
- Biodegradable
- Free from organic solvents, coloring agents and phosphates.

A **complete kit** to repair unlikely damages to the floor:

- 1 hot melt applicator
- 1 spatula
- 1 cleaning cloth
- 1 fleece cloth
- 1 bottle of lacquer 40ml, 20 wax sticks in different colours.
